Tour Guide Solution Modules

Module 1:

Silent Conference

Our exclusive Silent Conference System is carefully designed audio system that is perfect for corporate events, parties or meetings.

This solution is ideal for hosting multiple parallel sessions in a single hall and a good way to keep your delegates engaged without any distraction.

Every participant will have a receiver with headphone and provision to change the channel so as to switch between the speaker. Each presenter will have a transmitter with a high quality noise-cancelling mic for better quality sound output.

Module 2: Factory Tour

eM Play has a new solution of as factory tour guide and makes sure there's proper communication with the guests. A small pocket device that comes with wireless networking connect and helps in smooth presentation by the speaker even within a noisy surrounding.

The entire thought and planning behind the design of the gadget was to come up with a solution that will minimize the surrounding noise. With this factory tour guide audio solution, the presenter can remain assured that any piece of information she/he is passing over is well heard and not a single piece of information is lost.

The guided tour becomes an activity in silo even when appeared in a group for the visitors. The solution has a unique ability of enhancing the tour quality, consistency and creates a personalized relationship between the speaker and participants.

Module 3: Guided Tour

With eM Play's guided tour solutions, you can take a tour to a factory, event, or place with an entirely new perspective. These guided tour solutions have been designed to make your visits more informative, interesting and engaging. The best part is- these solutions are a guide to transfer knowledge on the go while not getting distressed.

Every tourer gets a receiver and is supposed to follow the guide, who the former could listen to while on the tour. Hence, a quiet and informative tour bundled with information is what you receive through this advanced technology guided tour solution.

Module 4:

Simultaneous Interpretation

A noise free, multiple interpretations with eM Play's simultaneous interpretation device is the new age technology that is set to revolutionize your experience about audio interpreter translators. The simultaneous interpretation equipment helps the interpreter translate into the listener's language real quick, while the speaker is still on with his/her speech in the source language from a sound proof booth.

The agility and clarity of translation plus sound quality is what makes this gadget unique and sought after. Moreover, interpreter never gets distracted by the surrounding noise because of its sound proof attribute. So, in an auditorium, simultaneously various language interpretation is possible owing to the unique features of this device.

The simultaneous interpretation is provided to listeners with the help of earphones.

Module 5: Stall / Learning Booth

Learning booths are set up for quick round of KT (knowledge transfer) within short time frame. As this device is extremely easy to set up and comes with limited requirements, it has become one of the most sought after and crowd pulling solutions in big shows.

The solution is ideal for all kinds of events, like: IT summits, Expos and Symposiums. Wherever there is requirement to engage delegates in events and venues for a short tenure, the eM Play tour guide solution has found itself in great demand.
